Wednesday, 20 <sup>th</sup> :	Race day 3
Thursday, 21 <sup>st</sup> :	Spare day (Can be changed due to circumstances.)
Friday, 22 <sup>nd</sup> :	Race day 4, Prize Giving

## **UYC Wolfgangsee (UYC Wg)**

The Union Yacht Club Wolfgangsee in St. Gilgen, Austria, founded in 1901, has a long tradition. From the beginning, the Sailing Club has been the home of very successful Austrian sailors, who achieved numerous international awards. Since 1960 sailors from the UYC Wg have regularly taken part in the Olympic Games. Hubert Raudaschl won two Olympic silver medals (Finn dinghy and Starboat) and in 2000 Christoph Sieber won the Olympic gold medal in the Mistral class.

Our club can be called “the Yngling Sailing Club” in Austria. Our members have about 35 Ynglings registered. About 15 of them are sailing Yngling regattas in Austria and in the neighbouring countries.

## **The sailing area**

Lake Wolfgangsee: surface 538m (1765 ft.), surface area 12,9 km<sup>2</sup>, max. depth 114m (374 ft.), temperature in July about 22 degrees C.

The Wolfgangsee, a lake with drinking water quality, is a long narrow lake situated within the northern foothills of the Austrian Alps, 30 miles off the Dachstein Mountain. There are Austria's hilly lowlands to its north and nearby, at the base of the foothills, there are two other large lakes: the Mondsee and the Attersee. The famous “Brunnwind” (thermic north wind) usually appears at midday. Normally it is a moderate breeze of force 2-3 Bf. If there is bad weather (we don't hope), strong winds can get up from the west. Sometimes in the morning and especially in autumn strong southern winds (“Föhn”) can prevail.

## Charter Ynglings

Enough modern double bottom and up to date low bottom Ynglings are available for charter.

All details about chartering will be on our website ([www.uyc-wolfgangsee.at](http://www.uyc-wolfgangsee.at)) on time.

## Infrastructur

There is enough room for 60 Ynglings in our harbor. The Club has got all necessary facilities such as a crane, a restaurant, sanitary facilities (ladies & gents), an office and all common communication equipments like WLAN. Parking facilities are available at the club area and next to the club.

## Accommodation

Hotels and rooms in all categories and bed and breakfast are available in walking distance to the UYC Wg. There is also a Youth Hostel next to the Club (early booking necessary). Camping with motorhomes will be possible directly at the club area and touristic campsites are located in St.Gilgen/Abersee.

## Sight Seeing Program

A sight seeing program can be organized by the UYC Wolfgangsee, such as boat trips, visits to museums in St. Gilgen (Mozart's mother's birth house), a local history museum, hiking in our mountains, (you even can reach the Zwölferhorn by a cable car, or the Schafberg by a cograilway), and much more. The fascinating city of Salzburg with its many cultural and shopping facilities is reachable within 30 minutes by car. The city of St. Wolfgang (famous for its old houses, narrow lanes and of course for the operetta „The White Horse Inn at Lake Wolfgang“) is reachable by boat.

## References

The Union Yacht Club Wolfgangsee also has practical knowledge in the organization and carrying out of many international regattas including World Championships (Tempest WC, Yngling WC, Soling Masters WC, Zoom8 WC), European Championships (such as the Soling Match Race 1997, EC Korsar 2013), District Championship Starboat, National Championships in various boat classes, Youth Championships, and Laser European Cup.

## More Information:

Beginning October 2015 the event-website for the Yngling Worlds 2016 will be online. There you will find all further information.

If you want some more information, please contact: [office@uyc-wolfgangsee.at](mailto:office@uyc-wolfgangsee.at)

*We wish all participating competitors and officials good sailing weather  
and a hearty welcome in St.Gilgen 2016!*
